

Tylö sauna door DGL

New series of stylish sauna doors from Tylö.

Tylö door DGL is a completely new range of exclusive sauna doors. The whole DGL-series based on approved decimeter dimensions of door industry. DGL sauna doors have a door leaf of toughened 8 mm safety glass and offered in either bronze-colored glass or clear glass. The solid frame (92 mm) is made aspen with a proprietary sealing strip. The door is also equipped with a magnetic strip closure. This not only provides an attractive appearance with chrome trim, but also a softer closure. The door has sturdy hinges in chrome appearance with top spot in stainless steel.
